Abstract: This Final Environmental Impact Statement (FEIS) describes seven alternatives, six of which propose changes to the National Forest Transportation System (NFTS) and would prohibit cross country travel on the Tahoe National Forest (TNF). These actions are needed in order to implement the 2005 Travel Management Rule (36 CFR Part 212, Subpart B) while providing for a diversity of motor vehicle recreation opportunities and providing motorized access to dispersed recreation opportunities on the TNF. The FEIS discloses environmental impacts associated with the Proposed Action, a No Action Alternative and 5 additional alternatives developed to meet the purpose and need and to respond to issues raised by the public.

Appendices not changed or revised between the Supplemental Draft EIS (SDEIS – February 2010) and Final EIS (FEIS) are not reprinted in this FEIS. Refer to the SDEIS for the unchanged Appendices.
