

**Biological Assessment on the Forest Plan Amendments for Motorized Access Management
within the Selkirk and Cabinet-Yaak Grizzly Bear Recovery Zones
(dated December 16, 2010)
Errata Sheet**

Corrections, clarification, and/or updates sent to U.S. Fish and Wildlife Service and reflected in FSEIS:

- February 10, 2011
- May 10, 2011
- October 10, 11, and 12 of 2011

Mistakes noted in the document (i.e. Table 22) that were corrected in the Allen (2011) white paper concerning Bears Outside of Recovery Zones:

History of bear sightings in the seven BORZ areas situated outside the Selkirk and Cabinet-Yaak Recovery Zones, 1994-2009 (data derived from Appendix B).

Bears Outside Recovery Zone	Grizzly Bear Recovery Zone	National Forest	Total Size (Acres)	Number of Credible Sightings 1994-2009		
				Total	Females with Cubs	Bear Mortality
Priest	Selkirk	IPNF	80,733	17	0	1
Pack River	Selkirk	IPNF	33,869	23 ^a	4 ^a	0
Mission-Moyie ¹	Cabinet-Yaak	IPNF	71,545	28	2	0
Clark Fork	Cabinet-Yaak	KNF	101,899	16 ^a	3	0
Cabinet Face	Cabinet-Yaak	KNF	28,052	23 ^{2a}	1	1
West Kootenai	Cabinet-Yaak	KNF	173,122	62 ^a	10	3
Tobacco	Cabinet-Yaak	KNF	287,240	60 ^a	17	0

¹Formerly called 'Deer Ridge' (Wittinger 2002).

²Includes observations of two different female grizzly bears in 2010.

^aCorrected data from Table 22 of the Biological Assessment (USDA Forest Service 2010).

Additional Corrections found in document that are reflected in the FSEIS:

- Citation on page 33: Allen and Lyndaker (2010) has been updated to Allen, Lyndaker, and Harris (2011).
- Citation on pg 50: Allen (2010) not in literature review. This refers to Allen (updated to 2011)-a separate white paper concerning the history and development of the BORZ

Dated October 31, 2011

- Sanitation on pages 50-51: Updated with new food storage orders for KNF, IPNF, & LNF
- Page 67-68—Lynx Direct/Indirect Effects: letter to FWS dated 10/21/2011 concerning effects analysis and request for concurrence
- Page 80-81—Woodland Caribou Direct/Indirect Effects: see letter to FWS dated 10/21/2011 concerning effects analysis and request for concurrence
- Literature citations for Grizzly bears: U.S. Forest Service 2005, 2006, 2008 should read as 2006, 2007, 2008

Missing Literature Cited (i.e. could not relocate in time for completion of project record):

- Kleinschmidt Associates and K.L. Pratt. (2001). Exotic species suppression and recreational fishery enhancement plan for Cabinet Gorge Reservoir, Phase 1-Volume 1: Life History Characteristics of exotic species and bull trout, potential interaction between species, review of suppression techniques, and potential impacts in the areas of interest. A report of the Clark Fork Aquatic Implementation Team. Noxon, MT.
- Knudsen, K. (1994). Water quality status report. Kootenay (Kootenai) River basin, British Columbia, Montana, and Idaho. Prepared for the Kootenai River Network, Helena, MT.

None of the afore-mentioned corrections or updates changes the analysis of effect for the T&E species reviewed in this Biological Assessment.

Dated October 31, 2011
