Subject: Fw: against grazing in Weminuche
Date: Friday, February 19, 2016 4:13:32 PM

I am strongly opposed to domestic animal grazing in the Weminuche. I understand the historical precedence, and the influence of a certain local politician. But animal grazing in a wilderness area is an oxymoron. They are destroying the natural habitat. There are lots of areas to graze besides a wilderness area, and it only benefits a small number of people.
