Dear Objector:

I received your objection to the draft Decision Notice (DN) and Finding of No Significant Impact (FONSI) for the Pacific Northwest Electronic Warfare Range Environmental Assessment (EA), located on the Pacific Ranger District, Olympic National Forest.

Eligibility to object to this and other projects is described in the Code of Federal Regulations (CFR) at 36 CFR 218, specifically at 36 CFR 218.5 under "Who may file an objection." Specifically, it states that "[i]ndividuals and entities who have submitted timely, specific written comments regarding a proposed project or activity...during any designated opportunity for public comment may file an objection."

A review of our records for this project found no written comments submitted by you during the scoping or the other designated comment periods on the preliminary EA. Therefore, because you did not provide any written comments during these specific opportunities for public comment, you are not eligible to object. Thus, in accordance with the regulation at 36 CFR 218.10(a)(3), your objection is being set aside without review. Please note, however, that some of the issues you raised may have been raised by others. A copy of the responses to the objection issues that were raised will be posted to the project's website under the tab "Objection Responses."

If you have any questions or concerns regarding the objection process, please contact Debbie Anderson, Regional Administrative Review Coordinator, at 503-808-2286 or danderson01@fs.fed.us.

Sincerely,

/s/ Reta Laford
